Tamil

Native or Bilingual Proficiency

WORK EXPERIENCE

Persoanl projects

Doing personal projects at home

01/2020 - Present

Tasks

- Project 1 : Made my portfolio (<https://malarruban.now.sh>) : **React, HTML5, CSS3**
- Project 2: A website for a company which rents out summer houses having two main features. The first feature is to show the property details .Using my front-end skills I help the product owner (company owner) show property details such as property picture, number of bedrooms, guest counts, city and price per night. The second important feature is to show tarrif range in the filter. As the product owner has umpteen number of summer houses, I have added the tariff range in the filter, in order to help the clients select the summer houses based on their affordability: **React, HTML5, CSS3 And API**
- Project 3: Developed a website for a resort. The search function is the main function of the website. Hotel rooms can be selected based on room type, number of guests and the price of the rooms. Web API is an important technical feature. **React, React Router, React Icons, HTML5, CSS3 And contentful API**

Maternity

Extended maternity leave to take intensive Danish course

08/2018 - 01/2020
